Contents of Volume 225, 1982

No. 1 issued on June 29, 1982

W.D. Hope, S.L. Gardiner: Fine structure of a proprioceptor in the body wall of the marine nematode *Deontostoma californicum* Steiner and Albin, 1933 (Enoplida: Leptosomatidae) 1

W.S. Stark, S.D. Carlson: Ultrastructural pathology of the compound eye and optic neuropiles of the retinal degeneration mutant (*w rdg* B^{KS222}) *Drosophila melanogaster* 11

K. Gerwerzhagen, M.J. Rickmann, D.L. Meyer, S.O.E. Ebbesson: Optic tract cells projecting to the retina in the teleost, *Pantodon buchholzi* 23

K.-H. Wrobel, F. Sinowatz, R. Mademann: The fine structure of the terminal segment of the bovine seminiferous tubule 29

J.Th. Gielen, H.J.Th. Goos, J. Peute, R.A. van den Bosch, P.G.W.J. van Oordt: The brain-pituitary-gonadal axis in the rainbow trout, *Salmo gairdneri:* Gonadal hormones and the maturation of gonadotropic cells 45

D. Moriceau-Hay, J. Doerr-Schott, M.P. Dubois: Immunohistochemical demonstration of TSH-, LH- and ACTH-cells in the hypophysis of tadpoles of *Xenopus laevis* Daudin 57

P.K.M. Worst, I.C. Mackenzie, N.E. Fusenig: Reformation of organized epidermal structure by transplantation of suspensions and cultures of epidermal and dermal cells 65

S.A. Thompson: Localization of immunoreactive prolactin in ependyma and circumventricular organs of rat brain 79

R. Guglielmone, G.C. Panzica: Topographic, morphologic and developmental characterization of the nucleus loci coerulei in the chicken. A Golgi and fluorescence-histochemical study 95

S. Bachmann, W. Kriz: Histotopography and ultrastructure of the thin limbs of the loop of Henle in the hamster 111

L. Schaller: Structural and functional classification of antennal sensilla of the cockroach, *Leucophaea maderae* 129

C. Penel, P. Bastiani, J.B. Rognoni: Correlation between thyroid-follicle fusion and structural modifications of the epithelial cells. A quantitative study in the adult rat 143

F. Wachtler, H.G. Schwarzacher, A. Ellinger: The influence of the cell cycle on structure and number of nucleoli in cultured human lymphocytes 155

G. Kurz-Isler, H. Wolburg: Morphological study on the regeneration of the retina in the rainbow trout after ouabain-induced damage: Evidence for dedifferentiation of photoreceptors 165

Z. Liposits, L. Nagy, G. Sétáló: Frontal deafferentation of the mediobasal hypothalamus in the neonatal rat and its effects on the preoptico-infundibular LHRH-tract 179

M.M. Miller, C.C.C. O'Morchoe: Decidual cell reaction induced by prostaglandin $F_{2\alpha}$ in the mature oöphorectomized rat 189

G.K. Dhoot, S.V. Perry: The effect of denervation on the distribution of the polymorphic forms of troponin components in fast and slow muscles of the adult rat 201

Short Communications

L.C. Saland, E. Ortiz, A.T. Munger: Effects of acute opiate-peptide administration on pro-opiomelanocortin cells of the intermediate lobe of the rat pituitary 217

S.E. Zalik, N. Milos, I. Ledsham: Distribution of a galactose-specific lectin in endoderm cells from early chick embryos 223

J.J. Peluso, C. Downey: Pattern of follicular development during the estrous cycle of aged rats 229

No. 2 issued on July 27, 1982

F. Chia, R. Koss: Fine structure of the larval rhinophores of the nudibranch, *Rostanga pulchra*, with emphasis on the sensory receptor cells 235

M.P. Chuang-Tseng, H.H. Chuang, C. Sandri, K. Akert: Gap junctions and impulse propagation in embryonic epithelium of Amphibia. A freeze-etching study 249

Y. Nagahama, R.E. Peter: Effects of brain lesions on gonadotrop ultrastructure and serum gonadotropin levels in goldfish 259

J.Cl. Baehr, P. Cassier, Cl. Caussanel, P. Porcheron: Activity of corpora allata, endocrine balance and reproduction in female *Labidura riparia* (Dermaptera) 267

P. Tran Van, A. Vignery, R. Baron: An electron-microscopic study of the bone-remodeling sequence in the rat 283

S. Benchimol, M. Cantin: Ultrastructural radioautography of synthesis and migration of proteins and catecholamines in the rat adrenal medulla 293

Y. Kameda: Degranulation and appearance of vesicular inclusions in canine C cells after administration of antithyroid drug 315

B.L. Hansen, G.N. Hansen, B. Scharrer: Immunoreactive material resembling vertebrate neuropeptides in the corpus cardiacum and corpus allatum of the insect *Leucophaea maderae* 319

R.L. Snipes, W. Clauss, A. Weber, H. Hörnicke: Structural and functional differences in various divisions of the rabbit colon 331

L.P.C. Schot, H.H. Boer: Immunocytochemical demonstration of peptidergic cells in the pond snail *Lymnaea stagnalis* with an antiserum to the molluscan cardioactive tetrapeptide FMRF-amide 347

Ö. Lundkvist, B.O. Nilsson: Endometrial ultrastructure in the early uterine response to blastocysts and artificial deciduogenic stimuli in rats 355

M.A. Derby, D.F. Newgreen: Differentiation of avian neural crest cells in vitro: Absence of a developmental bias toward melanogenesis 365

M.A. Derby: Environmental factors affecting neural crest differentiation: Melanocyte differentiation by crest cells exposed to cell-free (deoxycholate-extracted) dermal mesenchyme matrix 379

R. Markgraf, B. von Gaudecker, H.-K. Müller-Hermelink: The development of the human lymph node 387

N.A.E. Al-Nassar, R. Bellairs: An electron-microscopical analysis of embryonic chick tissues explanted in culture 415

K.S. Buser, B. Kopp, P. Gehr, E.R. Weibel, H. Hoppeler: Effect of cold environment on skeletal muscle mitochondria in growing rats 427

J. Somogyi, J. Hámori, V.L. Silakov: Free postsynaptic sites in the lateral geniculate nucleus of adult cats following chronic decortication 437

A.G. Gona, K.F. Hauser: Ultrastructural studies on the ventricular surface of the frog cerebellum 443

Short Communications

E.J. Catapane: The peripheral innervation of the gill of the marine mollusc demonstrated by the aluminium-formaldehyde (ALFA) histofluorescence method 449

P. Rebuffat, Cl. Robba, A.S. Belloni, G. Mazzocchi, P. Vassanelli, G.G. Nussdorfer: An electron-microscopic stereological study of the compensatory hypertrophy of the rat adrenal zona fasciculata after unilateral adrenalectomy 455

I. Raška, M. Titlbach, L. Boquist, S.O. Emdin, S. Falkmer: Optical diffraction analysis of crystalline inclusions in the rough endoplasmic reticulum of islet parenchymal cells of the hagfish, *Myxine glutinosa* 461

B. Rehn, W. Breipohl, T. Naguro, U. Schmidt: Effect of N-methyl-formimino-methylester on the vomeronasal neuroepithelium of mice 465

No. 3 issued on August 5, 1982

Y. Murabe, Y. Sano: Morphological studies on neuroglia. VI. Postnatal development of microglial cells 469

M. Olivereau, J. Olivereau: Calcium-sensitive cells of the pars intermedia and osmotic balance in the eel. II. Response to calcium-free sea water 487

M. Olivereau, J.-M. Olivereau, Chr. Aimar: Response of calcium-sensitive cells in the pars intermedia of the goldfish adapted to diluted sea water with different calcium and magnesium contents 497

P. Ekström: Retinofugal projections in the eel, *Anguilla anguilla* L. (Teleostei), visualized by the cobalt-filling technique 507

A.S. Tischler, R.L. Perlman, G. Nunnemacher, G.M. Morse, R.A. DeLellis, H.J. Wolfe, B.E. Sheard: Long-term effects of dexamethasone and nerve growth factor on adrenal medullary cells cultured from young adult rats 525

E.E. Schmidt, I.C. MacDonald, A.C. Groom: Direct arteriovenous connections and the intermediate circulation in dog spleen, studied by scanning electron microscopy of microcorrosion casts 543

R.L.R. Van, D.A.K. Roncari: Complete differentiation in vivo of implanted cultured adipocyte precursors from adult rats 557

M. Abraham, M. Kieselstein, V. Hilge, S. Lison: Extravascular circulation in the pituitary of *Mugil cephalus* (Teleostei) 567

G. Roussel, J.L. Nussbaum: Surface labelling of oligodendrocytes with anti-myelin serum in cell cultures from the rat brain. Light- and electron-microscopic immunocytochemical studies 581

D.S. Williams: Ommatidial structure in relation to turnover of photoreceptor membrane in the locust 595

W.L. Davis, R.G. Jones, J. Ciumei, J.P. Knight, D.B.P. Goodman: Electron-microscopic and morphometric study of vesiculation in the epithelial cell layer of the toad urinary bladder. Effect of antidiuretic hormone 619

I. Findlay, O.H. Petersen: Acetylcholine-evoked uncoupling restricts the passage of Lucifer Yellow between pancreatic acinar cells 633

D.R. Nässel: Transneuronal uptake of horseradish peroxidase in the central nervous system of dipterous insects 639

M. Duvert, D. Gros: Further studies on the junctional complex in the intestine of *Sagitta setosa*. Freeze-fracture of the pleated septate junction 663

U. Will: Efferent neurons of the lateral-line system and the VIIIth cranial nerve in the brainstem of anurans. A comparative study using retrograde tracer methods 673

Short Communications

J. Fonfria, M.G. Barrutia, A. Villena, A. Zapata: Ultrastructural study of interdigitating cells in the thymus of the spotless starling, *Sturnus unicolor* 687

Y. Kameda: C-cell follicles of canine thyroid glands studied by PAS reaction and electron microscopy 693
